SUMMARY

Python Full-Stack Developer with a Professional Diploma from Software University (SoftUni) and experience across Python, Django, JavaScript, and Angular. Most recently worked as an AI Researcher, building AI agents in pure Python, Retrieval-Augmented Generation (RAG) pipelines with Pinecone, OAuth 2.0-secured REST APIs (Representational State Transfer Application Programming Interfaces), and N8N workflow automations. Familiar with AI-assisted coding tools such as Claude Code and Cursor. Currently looking for the next opportunity.

SKILLS

Python, Django, Flask, Object-Oriented Programming (OOP), PostgreSQL, SQLite, JavaScript, HTML5, CSS, Angular, AngularJS, Docker, Terraform, MongoDB, Express, Git, AI Agent Orchestration, Pinecone, Retrieval-Augmented Generation (RAG), OAuth 2.0, REST APIs, N8N Automation, Claude Code, Cursor, Prompt Engineering

EXPERIENCE

AI Researcher — Programming and Automation

Edamame Digital, Sofia, Bulgaria | Mar. 2025 – Jan. 2026

- Designed and built AI agents from scratch in pure Python, with no external orchestration framework, integrated through OAuth 2.0-secured REST APIs.
- Implemented semantic search and Retrieval-Augmented Generation (RAG) pipelines using the Pinecone vector database and text embeddings.
- Built internal websites and workflow automations using N8N.
- Used AI-assisted coding tools, including Claude Code and Cursor, to accelerate development delivery.

EDUCATION

Python Full-Stack Developer, Professional Diploma

Software University (SoftUni), Sofia, Bulgaria | Jan. 2021 – May 2024
softuni.bg/Certificates/Details/215978/eb3cab1b

Software Engineer with Python, Diploma

Software University (SoftUni), Sofia, Bulgaria | Mar. 2024
softuni.bg/Certificates/Details/208770/e20ed08e

CERTIFICATES

- Python Web Framework (Django) — Software University, Jun. 2023 — Grade 6.00/6.00 — softuni.bg/Certificates/Details/182339/aa7184ea
- JavaScript Front-End — Software University, Oct. 2023 — Grade 6.00/6.00 — softuni.bg/Certificates/Details/201316/5ce8ca80
- Containers and Cloud — Software University, Jan. 2024 — Grade 6.00/6.00 — softuni.bg/Certificates/Details/206966/4c2c8e8b

- Software Engineering and DevOps — Software University, Feb. 2024 — Grade 6.00/6.00 — softuni.bg/Certificates/Details/213331/2d55e235
- Angular — Software University, Feb. 2024 — Grade 5.94/6.00 — softuni.bg/Certificates/Details/212770/7ec3caaf

PROJECTS

- Broffice — Full-stack Django + React e-commerce platform for a Bulgarian retailer, live in production with real customers. Dual pricing engine, promotions, self-hosted CI/CD. 2026. broffice.bg
- Property Listings Generator — Python/Flask tool that extracts property data from SQLite, PostgreSQL, MySQL, SQL Server, or MongoDB, translates Bulgarian to English, and generates PDF reports via a CLI or web interface. 2025. github.com/Aransok/JsonBulgarianDataToAINumericData
- LLM Article Summarizer — Python tool that fetches an article by URL, summarizes and titles it using a Llama model via Hugging Face, with optional translation. 2025. github.com/Aransok/LLM-Article-Summarizer
- Portfolio Website — Django and HTML/CSS personal portfolio site showcasing projects and certifications. 2025. github.com/Aransok/Portfolio-website
- Movie Website (Angular) — Angular front-end with MongoDB and Express back-end. Mar. 2024 – Apr. 2024. github.com/Aransok/Angular-Project-Moviesite
